

Anonymous Caller Rejection

A feature that allows subscribers to reject calls from parties who have a privacy feature that prevents the disclosure of the calling party number. When the feature is active, the incoming calls with a calling party number marked as private are routed to a denial announcement. Incoming calls with a calling party marked as public and incoming calls without calling party number information remain unaffected.

To "turn on" the service: Press *77 to activate.

To "turn off" the service: Press *87 to deactivate.

NOTE: You will not be notified when or how many calls have been rejected.
