

## Automatic Call Back

Auto Callback keeps trying the same number for you, letting you know when the line is available.

1. Upon receiving a busy signal, press the **“flash”** button on your phone.
2. Immediately dial **\*66** and then hang up. Your phone will check the number for up to 30 minutes.
3. A special callback ring alerts you if the line becomes free (some phones ring normal).
4. Lift the handset to automatically place the call.

### To cancel your repeat dialing request:

Press the **“flash”** button and immediately dial **\*86**. Listen for a confirmation tone or announcement and then hang up.
